Subject: Special Call Meeting Redevelopment

CITY CLERK

Mayor or Leslie

I would like to have an explanation on why there is a sense of urgency to have a special call during working hours to discuss the redevelopment borrowing. I know Earl has been working hard on finding a compromise that would assure passage with the council that addressed most concerns with regards to amount, and transparency. Many of the council people that I spoke to were in favor of the points laid out in the resolution Earl submitted. So my question is what cannot wait two weeks for us to discuss in our March meeting regarding redevelopment borrowing?

Thanks
Karrum
